

The University of Johannesburg (UJ) is a vibrant and cosmopolitan university, anchored in Africa, dynamically shaping the future through innovation and the collaborative pursuit of knowledge and striving towards Global Excellence and Stature (GES). The embodiment of core values such as independent thinking, meaningful engagement and sustainable development with a foundation deeply rooted in consistency and transparency make the University an international institution of choice for global excellence and stature.

GES 4.0 for Societal Impact Scholarships and Fellowships are intended to encourage and support Postgraduate students and Postdoctoral Research Fellows from various disciplines. If you are interested in carrying out cutting edge research activities in a multidisciplinary approach involving multiple academic entities and aligned to contributing to innovative solutions for positive societal impact and sustainability, then this call is for **you**. UJ is looking for candidates who are keen to work on addressing problems that leverage the transformative potential of technology to address the Global Sustainable Development Goals and impact society positively.

Postdoctoral Research Fellowships

Candidates who obtained their doctoral degrees within the last three years are invited to apply. Fellowships will be awarded on a competitive basis, taking into account the candidate's academic achievements, potential as an independent researcher and meeting the requirements of the call. Successful candidates will be expected to contribute to research productivity and impact in multidisciplinary research involving multiple academic entities that are aligned with UJ's new strategic focus on technology for positive societal impact and sustainability.

Interested candidates may apply online [here](#).

Master's and Doctoral Scholarships

Applications are invited from suitably qualified candidates who will be registering for full-time master's and doctoral studies at the University of Johannesburg in 2025. The scholarships will be awarded based on academic excellence. The call is open to candidates who intend undertaking multi-disciplinary research involving multiple academic entities that align with UJ's new strategic focus on technology for positive societal impact and sustainability. Race and gender demographics will be applied during the evaluation process in order to enhance the equity profile of postgraduate students at UJ.

Interested Master's candidates may apply online [here](#) while Doctoral candidates may apply [here](#).

Closing date for applications: Friday 15 November 2024

These GES Scholarships and Fellowships are highly competitive and limited in number.

The Future. Reimagined.
